

As directed by the Affordable Care Act, the Departments of Labor, Treasury, and Health and Human Service require a group health plan make publicly available on an internet website certain machine-readable files containing price information for the group health plan. The below links will take you to the following machine-readable files for the Butzel Long Employees' Welfare Plan, the group health and welfare plan sponsored by Butzel Long, a professional corporation:

- An in-network rate file for all covered items and services (including billing codes and applicable rates such as negotiated rates, underlying fee schedule rates, or derived amounts)
- An out-of-network allowed amount file (i.e., the maximum amount the group health plan will pay for a covered item or service furnished by an out-of-network provider)

Please note the files are quite large – upwards of 1 Terabyte of data (which is the equivalent of 250 movies). The files are accessible to any person, free of charge and without conditions. No user account, password, or other credentials, or submission of personally identifiable information is required to access the files.”
